

Factor Advantage

University Hospitals premier Comprehensive Hemophilia Treatment Center (HTC) is dedicated to meeting the special needs of patients with hemophilia and other bleeding disorders. That's why UH, in partnership with University Hospital Home Care Services has created the **Factor Advantage** program to provide seamless access to high-quality care along with significant cost savings.

Why Choose UH's Factor Advantage?

- Significant cost savings
- Local nursing and medical staff
- Local pharmacy with same day service
- Customized insurance consultations
- Monitoring of lifetime insurance maximums
- Seamless access to other University Hospitals services
- 24-hour, 365-day emergency services
- Full line of factor products and assays
- Patient and family education
- Bio-waste management

Expertise You Can Trust

Families throughout Northeast Ohio can rely upon our Hemophilia Treatment Center for all of their healthcare needs. HTC's team of nurses, pharmacists, adult and pediatric hematologists, pediatricians, orthopaedists, physical therapists and social workers are trained to meet the ongoing needs of patients with bleeding disorders.

Make it Your Choice

When it comes to comprehensive factor services, you can trust choosing **Factor Advantage**. Your choice ensures that you will receive that same consistent, compassionate and customized care that you have come to expect from UH.
