

Great food for a great cause!

April 16 – 22, 2007

**THE CAUSE:**

Anastasia and Tatiana were born conjoined at the head on January 13, 2004, in Rome, Italy, to Alin and Claudia Dogaru. Following the successful separation surgery of two boys in 2003, the Dogarus came to the United States in hopes of a miracle for their two girls.

Their separation will be performed at **Rainbow Babies & Children's Hospital** and will require a series of operations over the course of several months. The surgeons involved are donating their time; however, the additional medical costs will be extensive, reaching into the millions. A special fund has been established to raise money to help the Dogarus defray the cost of the twins' surgical and medical care at Rainbow.
