

# Autism Diagnostic Clinic

at UH Rainbow Babies & Children's Hospital

Multidisciplinary Diagnostic Evaluations for Children Younger than 48 Months with Developmental Delays and/or Suspected Autism Spectrum Disorders

## Autism Diagnostic Clinic Team Includes:

- Developmental-Behavioral Pediatrician
- Pediatric Neuropsychologist
- Speech Pathologist
- Behavior Analyst

## The Evaluation is a Collaboration of:

- Developmental-Behavioral Pediatrics
- Clinical Psychology
- Speech Language Pathology

## There are Three Visits:

- Day One: Psychology and Developmental-Behavioral Pediatrics
- Day Two: Speech Pathology and Autism Diagnostic Observation Schedule
- Day Three: Parent Meeting with Diagnostic Formulation and Recommendations

In order to schedule an appointment, the parents must complete a packet of questionnaires which indicate that the child is likely to be in the autism spectrum. Call UH Rainbow Babies & Children's Hospital at **216-UH4-KIDS** (844-5437) to receive a packet. Appointments will be made through the hospital's Child Development Center after the packets are received.

**For more information, call the Child Development Center at 216-844-3230.**

- **Early intervention is critical**
- **1 in 110 children are diagnosed with ASD**
