Enrolling and Activating Intelligent Hub (AirWatch)

For Apple iOS Devices

Introduction

This job aid will assist you in setting up Intelligent Hub (AirWatch) on your Apple device. Please note that the vendor has changed the name from AirWatch to Intelligent Hub. Intelligent Hub will secure your personal mobile device and will allow it to access your UH email, contacts and calendar from within your device’s native applications.

Note ► Many Apple devices and iOS versions exist. The process this job aid details may not be identical to the process to enroll your device. It should, however, be a very similar representation. If you have questions or if you need further assistance, please call the UH Service Desk at 216-844-3327.

IF YOU ARE IN A UH FACILITY:

Please ensure that your device is connected to UH_BYOD or your cellular connection throughout the installation process.

YOU MUST NOT BE CONNECTED TO UH_GUEST WIRELESS.

IF YOU ARE NOT IN A UH FACILITY:

It is recommended that you connect to a trusted WiFi network during this process.
Installing and Setting Up the Intelligent Hub App

Downloading the Intelligent Hub App from the App Store

1. On your device, tap the App Store icon to open the App Store.
2. In the lower right corner, tap on the App Store’s Search magnifying glass icon.
3. In the Search Bar of the App Store, enter Intelligent Hub.
4. Tap GET.

5. After installation finishes, the Hub app will be installed on your device.

Enrolling and Authenticating Intelligent Hub

1. On your device, tap the Hub app icon to open the app.
   - The main Hub screen appears.
2. On the main Hub app screen, tap the **Email Address or Server** field and enter your @uhospitals.org email address.

3. Tap **Next**.

   A Username and Password screen appears. This may look different depending on your network connection.

4. In the Username field, enter your **UH username**.

5. In the Password field, enter your **UH password**.

   **Tip ►** This is the same UH username and password you use to log in to your UH computer.

   **Tip ►** If you are not connected to the UH_BYOD network, you may be subject to additional verification. Instructions can be found here.

6. Tap **Next** or **Submit**, depending on your screen.
7. Scroll to the bottom of the screen and tap Continue.

8. Tap Download profile.

The Secure / Profile Download in Progress screen appears and takes a minute to complete.

The Ignore / Allow option screen appears.

10. Tap **Allow**.

The Profile Downloaded screen appears.

11. Tap **Close**.
12. Tap **Continue**.
   - The Set Up Your Profile screen appears.

13. Tap **Install profile**.
The Install Profile screen appears.

14. Scroll down if needed and tap the **Open the Settings app** button. The Settings app will open.

15. Tap **Profile Downloaded**.

**Tip** Please ensure that you are viewing the top level of the Settings screen, as pictured above.

**Note** The iPhone Settings will open in the state that it was previously used. It may be necessary to scroll and return to the top of the Settings screen to see the Profile Downloaded option.
The Install Profile screen appears.

16. In the upper right corner of the Install Profile screen, tap **Install**.

**Note** ► If you have a **passcode set on your device**, your device will now prompt you to enter the passcode.

The Enter Passcode screen appears.

17. Enter your device’s passcode.
18. Tap **Install**.

The Warning screen appears.

19. Tap **Install**.
Enrolling and Activating Intelligent Hub (AirWatch)

- The Remote Management pop-up appears.

![Remote Management pop-up](image)

20. Tap **Trust**.

- The Profile Installed screen appears.

![Profile Installed screen](image)

21. Tap **Done**.
22. Press your device’s **Home button** to return to the Home screen.

![Home button](image)

23. Open the **Hub** app on your device to continue the installation process.
24. Tap **Take me to Hub**.

    The Privacy screen appears.

25. Tap **I Understand**.
26. Scroll down if needed and tap either I Agree or Not Now.

**Note** ► You are not required to agree to share your information. Intelligent Hub uses any information collected to improve the app’s functionality. Choosing the Not Now option will opt you out of sharing your app usage information.

27. Tap This Device.
The This Device screen appears.

28. Tap **Sync Device** to begin syncing your UH email to your device.

```
If your device is presently not passcode protected or if your device’s passcode does not meet University Hospitals’ passcode complexity requirement, you will be prompted with the alert below to create/update the device’s passcode. A passcode must be set on your device to view your UH email.

The passcode must be six digits of any combination.
You will be prompted to change your device’s passcode every 90 days.
```

The “Passcode Requirement” screen appears.

29. At the Passcode Requirement pop-up, tap **Continue**.
30. Enter your new password, then tap **Continue**.

   The “Re-enter your new passcode” screen appears.

31. Re-enter your new passcode, then tap **Set Passcode**.

Now that you have enrolled your device, you must complete the steps below to access UH email, calendar and contacts on your device.

### Accessing Your UH Email, Calendar and Contacts

1. Open the Mail app on your device.

   The Password Required screen appears.

2. Enter your **UH password** and tap **OK**.

   **Note** ▶ This is the same username and password you use to log in to your UH computer.
3. If you do not see your list of Mailboxes, in the top left corner, tap <Back.

The Mailboxes screen appears.

4. Tap UH Corporate.

Note ► You may see a Cannot Get Mail message (see below) as your UH email account is being set up for your device. Click OK and wait for your email to finish setting up.

It may take up to 10 minutes for UH email to appear on your device.
Enrolling and Activating Intelligent Hub (AirWatch)

**Note** ► *Your device setup is now complete!*

**Tip** ► Please contact the UH Service Desk at 216-844-3327 if you need further assistance.

**Changing Your Email Password**

1. On your device, open **Settings**.
   - The Settings screen appears.

2. On the Settings screen, scroll down and tap **Mail**.
3. Tap **Accounts**.

   The Accounts screen appears.

4. Tap **UH Corporate**.

   The UH Corporate screen appears.

5. Tap your **UH email address**.
The Account screen appears.

1. In the Password field, delete your password.
2. In the Password field, type in your current UH password.
3. In the top right of the screen, tap Done.

9. Open your Mail app again. Email from your UH Inbox should appear within 10 minutes.

Tip ► If issues persist, contact the UH Service Desk at 216-844-3327 for further assistance.
