

UHapps provides quick access to UH applications and websites and can be accessed on mobile devices.

Logging in to UHapps on Mobile Devices

1. **Apple iOS:** Open the **Hub** app.
Android: On the “Work” side of your phone, open the **Hub** app.
Mobile devices without the Hub app: Please view the [detailed instructions](#) under UHapps Tools at uhospitals.org/for-employee.
2. Enter your UH user name and password and tap **Sign in**.
**If you are not connected to a UH network, you may be subject to additional verification. Instructions can be found [here](#).*
3. UHapps opens to the Favorites view. Tap on **Apps** to see a list of applications and websites available to you. Tap on any icon to open an application or website.
4. You can also use the Search field or scroll to the bottom and view categories to find an application/website.

Customizing the Favorites View

You can customize the Favorites tab to show only applications/websites you choose.

5. From the **Apps** view, tap the **ellipsis** next to the application/site and select **Add to Favorites** (or Remove from Favorites).
6. Tap the **Favorites** tab to view your saved Favorites.

Citrix Workspace and VMware Horizon Apps

If you are launching a Citrix or Horizon application from the UHapps catalog, your device will need the appropriate app installed.

7. To install these apps, go to the **Apps** view, scroll to the bottom and select **Mobile Apps**.
8. From this view, you can install the app(s) or verify that they are installed.

Once the apps are installed, they will open automatically as needed, based on the application you launch.
