

COVID-19 Rapid Testing Event

In partnership with University Hospitals, _____ is hosting an on-site COVID-19 antigen testing event.

When: _____ from _____

Where: _____

How: Visit _____ to schedule your appointment time

What is an antigen test?

An antigen test reveals if a person is currently infected with the COVID-19 virus. A long swab is inserted into the nostril and swirled around for about 10 seconds to obtain a sample of nasal secretions for testing. Although it may be uncomfortable, the collection is not painful and the appointment only takes about 20 minutes from beginning to end. You will be required to sign a release of information waiver prior to the test.

Do I have to be tested?

Based on health guidelines and a decision made by your organization, participation in this testing event is

_____.

What do I have to bring?

Please bring your driver's license OR state-issued ID card to your scheduled appointment.

What is the cost?

There is no cost to you. _____ will cover the cost of the test.

What if I test positive?

Results will be provided the same day. If your test is positive, you may be asked to isolate at home. Your employer will provide specific protocols for your organization and/or direct you to the ODH for recommendations.
