

# **Stocking a Healthy Kitchen**

### Plan Ahead

- Keeping a variety of shelf stable and frozen foods can help you create quick and nutritious meals during times when you cannot access the grocery store on a regular basis.
- Think of your favorite meals and ingredients you need to keep on hand to make these meals before you go to the store.
- Go through your cabinets and pantry to see what you have already and decide how much you need of these items; this will help cut down on the amount of time that you spend in the store.

### **Quick & Nutritious Meals Using Pantry Staples**

- Mix plain oatmeal with one to two tablespoons of peanut butter for a delicious breakfast with a side of fruit (raisins or a banana)
- Add pureed beans to marinara sauce and serve over pasta with a side of vegetables (frozen green beans).
- Make a quesadilla with canned chicken, canned tomatoes, and cheese on a small tortilla along with a side of vegetables
- Make a peanut butter sandwich on whole wheat bread with a side of fruit (fruit cup in 100% juice) and veggies (sliced carrots)
- Try the black bean and lentil taco recipe below for taco night.

### **Snack Ideas**

- An apple with 1-2 tablespoons of peanut butter or a hard-boiled egg
- A fruit cup in 100% juice (pears or pineapple) with a string cheese
- One cup of cereal (Cheerios) with one cup of shelf stable milk.

## Kid-Friendly Chicken Enchiladas with Black Beans and Corn

#### Ingredients

- 1 lb. chicken breasts, sautéed and cooled OR 2 (10 oz.) cans salt-free white meat chicken (drained) *see cooking tip below*
- 15.5 oz. canned, low-sodium black beans (drained, rinsed)
- 10 oz. packaged, frozen whole kernel corn (thawed) OR 15 1/4 oz. canned, no-salt-added, or, low-sodium corn (drained, rinsed)
- 3 tsp. mild chili powder (divided use)
- 12 small whole wheat or corn tortillas
- 12 toothpicks
- 14.5 oz. canned, no-salt-added, or, lower-sodium tomato puree
- 1/2 cup low-fat sour cream

#### Directions

- 1. Preheat oven to 400° F.
- 2. In a large bowl, add the cooled chicken. Let kids shred the chicken with their fingers. Then, have them add black beans, corn, and 1 teaspoon chili powder to bowl with chicken and let kids mix together with spoon.
- 3. Wrap 12 tortillas in 2 to 3 damp paper towels and heat in microwave until warm, about 1 to  $1\frac{1}{2}$  minutes.
- 4. Spray a baking dish with cooking spray. On a cutting board, place 1 warm tortilla and have kids add about 1½ spoonsful of mixture in a line down the middle of the tortilla. Roll the tortilla up and use a toothpick to hold together. Place in the baking dish. Repeat with other tortillas. Any extra meat mixture leftover can be poured on top of rolled tortillas.
- In a small bowl, have kids mix 2 teaspoons chili powder, tomato purée, and sour cream. Have them stir mixture and then pour on top of rolled tortillas. Bake in oven until warmed, about 15 to 20 minutes

**Cooking Tip:** For a quicker meal, 2 cups shredded chicken from half of a rotisserie chicken or 2 (10 oz.) cans salt-free white meat chicken (drained) can be used instead of the chicken breasts.

**Tip:** Warming the corn tortillas in the microwave before rolling into enchiladas is a necessary step—the warmed tortillas bend nicely. Cold corn tortillas break very easily, which makes rolling into enchiladas not a success.
