

Rainbow at a glance

Internationally renowned, University Hospitals Rainbow Babies & Children's Hospital is a full-service children's hospital and pediatric academic medical center with experts in 16 medical and 12 surgical subspecialties who provide nationally ranked care not available at other institutions in the region, including a center dedicated to adolescent and young adult cancer and Northeast Ohio's most advanced maternal/fetal medicine and neonatology services available under one roof. UH Rainbow Babies & Children's Hospital offers access to novel therapies, advanced technologies and clinical discoveries before they are available nationwide. Our pediatric specialists – all of whom serve on the faculty at Case Western Reserve University School of Medicine – are engaged in today's most advanced clinical research and are widely regarded as leaders in their field. Rainbow Babies & Children's Foundation: For over 130 years, the women of the Rainbow Babies & Children's Foundation have supported UH Rainbow Babies & Children's Hospital with dedication, generosity and passion. Through strong advocacy, partnerships and financial support, the group will continue its vision to make the very best health care available to every child in Northeast Ohio and beyond. The Rainbow Babies & Children's Foundation has donated more than \$100 million to the hospital over just the last two decades.

Quick Facts

- **Ranked one of America's Best Children's Hospitals in eight pediatric specialties by U.S. News & World Report**, ranking among the nation's top 25 in neonatology, pulmonology, cancer, orthopedics, diabetes & endocrinology and urology. Learn more at Rainbow.org/USNews.
- **The UH Rainbow Center for Women & Children** provides a preventive care delivery model with the goal of building a healthier community. The outpatient healthcare center features innovative programs for primary pediatric care, women's health and social services, as well as additional programming to support patients, their families and the community.
- **Magnet recognition:** Designated by the American Nurses Credentialing Center (ANCC) as a Magnet hospital, the highest honor an organization can receive for excellence in professional nursing practice.
- **Ranked #6 in neonatology:** Our neonatologists collaborate with maternal fetal medicine and other specialists to provide the most advanced, comprehensive care available for mom and baby under one roof. Our neonatologists are leading efforts to reduce preterm births and infant mortality rates through innovative programs and groundbreaking research.
- **Ranked #20 in respiratory care:** A leader in advancing care and improving outcomes for cystic fibrosis, asthma, newborn lung disease, apnea and other respiratory conditions. We established one of the nation's first cystic fibrosis centers and are a leading center for clinical trials. Our physician-scientists are translating discoveries into vital new therapies every day – such as new drugs aimed at improving gene and protein function in CF patients.
- The **Angie Fowler Adolescent & Young Adult Cancer Institute**, integrated with UH Seidman Cancer Center, is internationally recognized for basic, clinical and translational research, ensuring patients have access to the most advanced therapies FIRST, including being the **first in Ohio to offer proton therapy**.
- **Extending the best heart care to families across Ohio:** Through The Congenital Heart Collaborative, an innovative partnership with Nationwide Children's Hospital, UH Rainbow Babies & Children's Hospital delivers lifelong, high-quality, comprehensive care for congenital and acquired heart conditions.
- Established one of the nation's first pediatric accountable care organizations.
- Northern Ohio's only verified Level I Pediatric Trauma Center.
- Rainbow surgical specialists offer minimally invasive techniques and were among the **first in the nation to perform pediatric single-site surgeries**.
