

Do you have asthma?

We are studying the effects of acid in the airways of asthma patients

Help us develop new, personalized asthma treatments

This study is for people with asthma who also:

- Are 18 – 50 years old
- Have asthma symptoms despite treatment
- Are available for 3-4 clinic visits over 2-6 weeks

Financial Compensation Provided

Asthma pH Study

[AT-A-GLANCE]

Join the study

What to expect if you join

Visit 1

We explain the study & make sure you're a good candidate

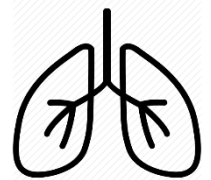

Visit 2

Inhaled challenge test

Visit 3

Research bronchoscopy

Impact the future

You agree to participate

You participate in the study

The data collected helps future studies

New drug therapies can be tested & developed
