

MyChart Patient viewing of Radiology Images

Purpose

This tip sheet provides guidance for patients to access their MyChart to review their Radiology imaging results, and to see the associatied medical images from their chart.

Log in to MyChart

- 1. Login to Mychart from browser (<u>https://www.uhhospitals.org/mychart</u>) or mobile Epic mobile MyChart app.
- 2. Enter your MyChart username and password, and click Sign In.

View your Imaging test results

- 1. With MyChart, you can view test results as soon as they become available, rather than waiting for a phone call or letter from your physician.
- 2. To view test results, go to **Toolbar > Test Results Button**.

3. Select your imaging exam.

4. Navigate to the bottom of your imaging result > Click Linked Information.

TECHNIQUE:	
Standard technique.	
FINDINGS:	
This is a Test report. Please verify everything appears as expected in all	
your downstream systems. This is a Test report.	
Linked information	
	Back to Test Results list

- 5. A Web viewer will open in new window for University Hospital Sectra PACS (Picture Archive and Communication System).
- 6. On the left hand side of window, click Images.
