

December Fitness Center Member Newsletter

Top of the Month: December 2025

A Message from our General Manager Brad Calabrese:

As we wrap up 2025, we extend a heartfelt thank you to our members and staff for helping us earn "Best of the West" for our Fitness Center and "Best of Lorain County" for our Spa. Your dedication, support, and enthusiasm make our community truly exceptional.

Over the last year we've reinvested into the facility with hopefully more coming for 2026. New bikes and treadmills on the fitness floor, lighting in the racquetball courts and pool area, new filters in the pool, along with new flooring in in our main walkway that has brightened the place up.

Looking for the perfect gift this holiday season? Spa gift cards are a wonderful way to treat someone special—or yourself. And don't forget: for every \$50 in gift cards purchased, you'll receive a \$5 coupon good toward any spa service from January through March 2026. Choose from manicures, pedicures, massage, facials, and more! Our experienced team is ready to pamper you.

Finally, as a reminder, the Holidays also unfortunately bring parking lot thefts everywhere. Please do not leave packages, or wallets, purses or other valuables in plain site in your vehicles.

MEMBER SPOTLIGHT

meet

Lynnae Harmych

Read about Lynnae below and be sure to say hello when you see her around!

Lynnae has been a proud member of our fitness center for over 20 years! She first joined when her old gym closed, and since she loves playing racquetball, this was the perfect place to keep doing what she enjoys. Sports have always been a big part of Lynnae's life, and staying in shape helps her continue to play the games she loves. For her, exercise is more than just a workout—it gives her energy, keeps her feeling strong both physically and mentally, and has introduced her to lifelong friends along the way. Her advice to others? Find an activity you truly enjoy, and reaching your goals will feel a whole lot easier. We couldn't agree more! Thanks for your commitment to your own health as well as your family and friends. Fun fact – Lynnae's son Nate is a future Physical Therapist and did an internship with us.

With the change of each month, be sure to check the doors of the gymnasium to reference availability. Generally, the weekly schedule is as listed below. There are a few times during the month in which we have special events such as Intro to Pickleball. If there is nothing listed, the gym is open first come first served for basketball or Pickleball.

Health and Fitness Tip of the Month

from Ashlee Sanchez, Fitness Specialist and Certified Personal Trainer.

Around the Clock Balance Exercise

This exercise is a great way to help improve your balance and improve your memory. You will be exercising and using your brain at the same time! She includes this class in the popular water balance class held in are warm water pool.

What will I need?:

A wall, chair, table, desk or something you can use to help assist with your balance.

How to do the exercise:

- 1. Look at a clock on the wall. Before you start the exercise make sure you are standing straight and engaging your core.
- 2. Start with standing on your left leg where your right foot is off the floor.
- 3. You will maneuver your right leg to match the numbers on the clock. For example if you say 12 you would move your right leg forward while balancing your left.
- 4. Go through all the numbers on the clock and match each number with your right leg.
- 5. After finishing standing on the left leg you will switch by standing on the right leg while lifting your left leg and going through all the numbers.
- After getting comfortable doing the exercise while looking at the clock, try the exercise without looking at the clock to challenge yourself more.

Standing on Left Leg, point to "12:00" with right leg

Standing on Right Leg, Point to "2:00" with left leg

Did you know that exercises like this can help strengthen our brains? How?

- It increases blood flow to our brains. This process delivers more nutrients and oxygen.
- Promotes creation of new neurons and increase production of BDNF which helps repair brain cells and create new cells.
- Enhances brain structure which will help with the ability to learn and help with memory.
- Releases beneficial chemicals like dopamine and noradrenaline which are critical for retaining new information after you learn them.
- Reduces stress impact. Decreasing stress will help prevent memory and cognitive function from being impaired.

WELLNESS presentation

These are FREE presentations open to members and guests and held in our first floor conference room. Please reserve your spot online or at front desk to help us plan the event.
